

FIRST SIGHT

HOUSE FOR SALE IN SANT JUST DESVERN - BELLSOLEIG

All the paintings have a central element, which first draw the attention of the viewer. Fine lines that define its exterior structure are of an extraordinary minimalist beauty, which invite us to access with our senses alert. Another element to consider will be the depth of the composition, the luminosity of the living room at the foot of the garden and the pool are a privilege. The whole life of the house is resolved on two floors, day area and night area. Wide spaces, with all the amenities included. It is a house for those who do not like to climb stairs, because these have the least possible role, exposed to the outside and at the same time retaining all the necessary and desired privacy. On the upper floor, four rooms and a master suite, and three full bathrooms. This work does not fall into abstraction but it does awaken sensations and all of them have to do with pleasure and well-being.
