

FLAT FOR SALE IN BARCELONA - EIXAMPLE DRETA

The estate shows elegance, and the vestibule does not deny that first impression. On the contrary. I remember when I met the owner of this majestic house with an air of serene elegance, I outlined the history of the painting that presides over the hall, a beautiful portrait that hides a curious and fascinating.... But this is another story, one day I'll tell it to you. A large hall divides the day area to one side and the room area to your right. In the first area we find the spacious and bright living room. The ceilings (moldings) are of extraordinary beauty, as well as the finishes, which make this floor an exclusive and unique property. In the other wing can find the rooms, one double, another that currently occupies an office/library, and a master suite with full bathroom.

A renovated and practical kitchen, which due to its dimensions is eminently functional. Heating in all rooms, air conditioning.
