

THE BRIGHT SIDE OF LIFE

HOUSE FOR SALE IN ESPLUGUES DE LLOBREGAT - CIUTAT DIAGONAL

We took a privileged place for its location (but am I really 20 minutes from the center of Barcelona?), on a plot of 410sqm, detached house of 306sqm. The fact that it is a house where the owners have lived and have pampered until the last moment, it gives us the assurance that its state of maintenance is impeccable. So we can undertake any project to refurbishment to our satisfaction, without surprises or unexpected upsets. Public transport 50 meters from the house, and a step away from the international schools.

The house is distributed on four floors connected by an internal staircase, likewise, we can also access the different floors from the outside staircase.

The first floor has a large living-dining room with spectacular views and an incomparable lightness and fully equipped
