

UNIQUE PIECE FROM THE 19TH CENTURY NEXT TO THE ARC DE TRIOMPHE

FLAT FOR SALE IN BARCELONA - EIXAMPLE DRETA

We present you this spectacular 198 sqm house on the top floor of an emblematic building in Barcelona. The direct sun in all rooms, the high ceilings with cornices and the Nolla-type mosaic floor in perfect condition, will leave us impressed when entering the house.

The prestigious Catalan architect Joan Torras y Guardiola, captured one of his most precious works, where he lived part of his life. The system of partitioned vaults, the amplitude and clarity, were the bases of his project. In addition, the perfect orientation of the building, allows to have rooms to the East, South and West, which means that we enjoy the sun from sunrise to sunset. Upon entering the house we have a majestic 18 sqm hall that gives way to the largest rooms: 20 sqm and 22 sqm with balconies facing Ronda Sant Pere street.
